Telegrams.

(By Havas Agency)

Berlin, Jan. 16—The composition of the Koch lymph is now officially published.

Paris, Jan. 16.—The Senators have unanimously re-elected M. Le Royer, their late President.

Lisbon, Jan. 16th—The Portuguese volunteer expedition has started for Mozambique, and its members are inspired by the utmost enthusiasm.

Montevideo, 16—It is probable Mr Jose Ellauri will be sent as financial agent to Europe. The *Razon* gives a biographical sketch of this distinguished Oriental.

Things continue to improve; stocks rising and gold falling.

The Montevideo left this evening for Buenos Ayres.

Cordoba, 16—The authorities have ordered general arrests, and great excitement prevails, people fearing an outbreak.

BERLIN AND ARGENTINA.

London, Dec. 10th.

You will see in to-day's *Times* a telegram from Berlin about a meeting of German financiers who hold Argentine securities, and also a letter from Mr. Madero to Mr. Drabble. They are both of a nature to make the British public believe that Argentina is by no means in such difficulties as ignorant people like myself have for some time thought. The German bankers ridicule the proposed Moratorio of 3 years, and endorse the position assumed by the French and German delegates at the Siamese Twins conference in the Bank of England, namely that in 6 months the present difficulties will have been wholly surmounted and the Argentine Treasury in a satisfactory position. They will not listen to any funding of interest for 3 years, such as contemplated by Lord Rothschild and the Bank of England, but expect the regular payment of coupons on all Argentine stocks, precisely as if the Barings had not collapsed. It is added that they have telegraphed their resolution to the Cabinet at Buenos Ayres, from which we may infer that they mean to give trouble if the remittances for coupons in 1891 do not arrive with "religiosity."

Mr. Madero's letter wears a rosy tint in the midst of an atmosphere of black despair, but a bushel of such letters would have little effect in the present severe crisis, and as a commentary on his letter Argentine stocks again fell to day. Nevertheless the Berlin bankers and the French capitalists will use the letter as an argument that Argentina is by no means in need of the proposed Moratorio. A Paris telegram in the *Times* last week stated that Argentine liabilities in that city reach 275 million francs or eleven millions of pounds sterling. We may put down the obligations at Berlin as something less, say 9 millions. Thus the amount of Argentine obligations according to the best information is as follows:—

	At.	£
London		75,000,000
Paris		11,000,000
Berlin		9,000,000
Total		95,000,000

This is, of course, inclusive of Cedulas, Santa Fe and Tucuman scrip and other items not strictly Argentine funds. But there is such a close connection between all kinds of Argentine obligations that it is advisable to view them collectively.

If there were a suspension of payment of coupons on the Cedulas the result here would be just as bad as to stop paying Argentine funds. Hence the proposal attributed to Dr. Plaza, of converting Cedulas at fifty per cent, is a decided move in the right direction. It occurs to me that if Argentina can only get Cedula holders to take half-price it would be possible to get boudholders to do the same.

No sane man can suppose that the Argentine Republic can pay interest and amortisation on its present debt, unless by successive issues of shinplasterr, which will ultimately reduce the country to a fearful state of misery. The Government and Congress have no right to add to the present suffering, and yet they have no alternative. You may sell the Government House, the Gran Chaco and Cape Horn to keep your head over water for a little. You must begin "da capo." One great mistake by a succession of Finance Ministers at Buenos Aires was in supposing that the issue of piles of paper money neither impoverished the country nor added to its debt. This mistake is not yet confessed, and hence I have a strong suspicion that 1891 may see another issue of shinplasters; that is, either Cedulas, paper dollars or treasury bills; perhaps an issue of each.

A telegram some few weeks ago said that "the Finance Minister takes a hopeful view of the situation and proposes a new tax on tobacco."

The gravity of the financial difficulties at Buenos Aires is apparently ignored both by the Ministers and the public

CONGRESS,

SITTING OF THE SENATE.

THE DEBATE PUT OFF.

DISAPPOINTMENT OF THE MINISTER.

The Senate was supposed to meet at 8 a.m. yesterday morning, but no quorum could be formed till a quarter past ten, when the honorable members who had arrived early, and had been waiting two hours, were in anything but an agreeable frame of mind. Minister Lopez turned up punctually, looking hale and hearty, in spite of all the opposition he meets with. There is a strong impress of vitality and resolution about the old gentleman that excites admiration; his powers of resistance grow with the obstacles placed in his way. What a pity such splendid qualities are wasted in a bad cause. He might be an excellent President, and we should rather see him in the Presidential Chair than in the Finance parlor. Any other man but Lopez would have already succumbed to the opposition raised against his policy; but our financial Cato is as impervious and as stolid as a rugged rock; more's the pity for this fair country.

In the lobbies we saw the familiar figure of Don Eduardo Madero, who walked in to see his old chum the Minister. Towards ten o'clock several Senators dropped in, and at a quarter past ten the quorum was formed. Senator Absolom Rojas looked much annoyed: he had been patiently waiting, report in hand, for his dilatory colleagues since eight o'clock.

The honorable gentlemen all looked in a very bad humor as they sat down and Chairman Derqui rang his bell. The Secretary began reading the report of the financial committee, but he was fortunately stopped by a Senator who begged him to desist, as all the Senators had read the lengthy document. The debate then opened. Senator Rocha, who was paler than usual (owing to late hours, no doubt) begged his colleagues to suspend the sitting and put off the debate till to-day; he urged that the Senators had not had sufficient leisure to study the report of the Committee. On the plea of so-called urgent and irrevocable necessities, he and his colleagues had for the last two years sanctioned every financial measure proposed by successive Ministers; he thought that it was time to draw the line somewhere. He, at least, was surfeited with this kind of thing and wished to study the question thoroughly, and his colleagues, he hoped, were of the same opinion.

Senator Rojas said he had no objection, but he devoutly wished that his colleagues would be punctual to-morrow; it might be well to fix some hour between morn and night.

Put to the vote, Senator Rocha's motion was carried by nine votes against seven.

Senator Galvez raised some objection, and the voting was renewed with the same result.

Minister Lopez then begged that the financial bills be discussed there and then, for the sake of the vital interests of the country. These bills were drawn up, he said, to save national finances.

Senator Rocha politely informed H. E. that his motion had been voted and there could no longer be any question in the matter, to-day at least.

The Minister then begged that the motion of Senator Rocha be reconsidered; put to the vote the objection of the Minister was thrown out by a sweeping majority.

The House then rose; it meets to-day at 9 a.m.

SITTING OF THE DEPUTIES.

NO QUORUM.

The Deputies made a great effort yesterday to meet. Forty-two members met in the cool parlors about half past three and waited till half past four, when the speaker moved into the House. As the 42 members sat down—two short of a quorum—Deputy Olmedo gave vent to his feelings and stated that, according to the regulations of the House, the members were under no obligation to remain in the precincts more than half an hour after the appointed hour in case a quorum could not be formed. The speaker then fixed the daily hour of meeting at 3 p. m., debate to begin at 3 30 p. m. Deputy Mansilla urged his colleagues to remain in the building until a quorum be formed; he was willing to remain all night. The House held out till five o'clock when the members dropped away rapidly leaving the precincts deserted. In fact, affairs in the Deputies were even more aggravating than in the Senate in the morning. Business of the day in both houses—nil.

In the lobbies of Congress it is expected that Senator Rocha will attack the Bills to-day from an economic stand-point, whilst the venerable Senator Dr. Cortes will prove them to be unconstitutional.

THE CHILIAN REVOLUTION.

LATEST DETAILS.

Telegrams were received from the Uspallata Pass yesterday, throwing considerable light on the march of events in Chile. It appears that, no sooner had the fleet risen against the authorities, than President Balmaceda issued a decree cashiering the officers and declaring them traitors. The officers and men in the training-ship at Talcahuano joined the revolutionary squadron.

By order of the President 300 prominent members of the opposition party in Santiago and Valparaiso were arrested.

The corvette "Esmeralda" of the revolutionary squadron endeavoured to land men in Talcahuano, but they were obliged to desist and retire, owing to the determined attitude and warm firing of the 7th of the line.

The offices of all the opposition newspapers were closed on the evening of the 7th by order of the President of the Republic.

A traveller, arrived in Uspallata from the scene of the revolution, states that on the 7th the fleet filed a protest against the imprisonment of Congressmen. Towards six in the evening the "Huascar," which was in dock, was taken out. On the 8th the fleet took a number of bullocks and a large quantity of ammunition from the deposits on shore. One of the vessels fired into a convoy of waggons carrying troops, killing a sergeant and an artillery-man.

The Home and War Ministers on the 7th took up their quarters in Valparaiso, where the garrison had been reinforced.

On the 9th the fleet captured the steamer Cleopatra, on board which were found 5,000 rifles and a large quantity of ammunition.

On the night of the 8th armed groups destroyed the printing-offices of the opposition papers in Valparaiso.

The fleet took possession of the steamers Amazonas and Aconcagua, which have accommodation for 2,000 men each.

The people in Coquimbo and Serra have risen against the authorities.

People are alarmed throughout the country and many have crossed the Andes taking refuge on the Argentine side.

President Balmaceda issued a second manifesto, in which he called upon the people to support him as the country—which had enjoyed peace at home during 30 years—was now in danger. He also appealed to the army, the "glorious Chilian army."

It is stated that the revolutionists received arms and ammunition from B. Ayres in no insignificant quantities.

The Government forces have captured many revolutionists. General Urrutia heads the revolutionists in the North, and the authorities are retreating.

LONDON LETTER.

FINANCE AND GOSSIP.

(From our own Correspondent)

Dec. 11th, 1890.

I enclose reports of two important meetings, those of the Santa Fé and Cordoba Land Co. and the London and River Plate Bank. Mr. Henry R. Rodger, who presided at the Santa Fé Land Co.'s meeting, in proposing the adoption of a favourable report, had to apologise for the absence of more brilliant returns than 5 per cent, owing to the disturbed state of political and financial affairs in the River Plate.

Mr. G. W. Drabble, the chairman of the London and River Plate Bank meeting, had a more easy task, for, in spite of the troubles in the Argentine Republic, the directors declare a return to the shareholders amounting, with the December dividend and bonus of 5 per cent, to an annual dividend of 15 per cent., while the disposable funds for division would really give a higher return did not the Board, with its usual prudence, think it wise to strengthen the reserve and to open a new account, called "Profit in suspense a/c" for £150,000. Mr. Drabble gave a flattering account of the results of the thorough auditing of the bank's books and securities by the London accountant, Mr. Griffiths, who has recently been in Buenos Ayres. The chairman also explained the new method of transferring the bank's currency accounts at the rate of the day instead of at par, which to the uninitiated might make the general business of the bank look on the decrease, whereas, with allowances for the difference of exchange, the books showed clearly a large increase. After his very clear and straightforward exposition of the financial arrangements of the bank, Mr. Drabble made a kindly allusion to the new manager in Buenos Ayres, Mr. Rodney John Fennessy, and then touched on the subject of the Argentine Committee's report signed by Lord Rothschild, which Mr. Drabble's participation in that conclave made his statements and opinions doubly interesting. He read a quotation from a letter from some gentleman in Buenos Ayres able, as he said, to form a very correct idea of the state of things in that city. The upshot of the letter was that if the Argentine Government could only get "breathing time" all would be well. The "bete noir" of the London bankers, as represented by Mr. Drabble, seems to be the "paper" and the consequent premium on gold, so much affected by the necessity of the Argentine Government to remit for the service of its debt in gold. This was evidently the cue given to the London Argentine Committee and the reason why the French and German delegates protested and continue to protest against its decision, notwithstanding that the Argentine Government has telegraphed to Berlin that it intends to accept the offers and advice of the London syndicate. The German bankers demand above all things the punctual fulfilment by the Argentine Government of its obligations towards its creditors. The Germans and French are more interested than is the British public in Argentine bonds, and more interested in wool than are British bankers and merchants. It looks as if the London syndicate, with larger and more humane views, watched over the interests of the Argentine Government, without pressing it for the security of the Customs revenues. For is it not written that Dr. de la Plaza, when being sounded on that point, replied to Lord Rothschild that were he to entertain such a proposal he would first be cabled for and then shot! A dramatic utterance that possibly influenced the whole committee, excepting the chairman of the London and River Plate bank, who knows better. Now facts must be stated: admitting the generous feeling of the Rothschild syndicate towards a republic in financial distress, the London newspapers are filled with letters—and some of them very good letters—from small holders of Argentine bonds who accuse the committee of acting in the interests solely of Barings and Barings' guarantors. One sore point appears to be the Buenos Ayres Drainage and Water Works, which is thought to be a private undertaking that concerns the municipality of Buenos Ayres and the contractors more than the National Government and its bondholders.

The *Financial News*, as I may find space to show presently, has like Parnell and other great people lost credit by having its private affairs exposed in the law courts, but all of its correspondents surely cannot be under the same taboo. For example, in to-day's issue of that paper, there is a letter having the signature, "A South American Merchant" which bears the stamp of respectability on the face of it. The "Merchant" says; "That the Argentine Government should now take upon its shoulders this bad business"—the Water and Drainage—"is indeed a monstrous proceeding. This scheme is one which appertains to the City of Buenos Ayres alone, regarding the financial position of which is will suffice to give you the full extract from the B.A. STANDARD newspaper of Nov. 8th." "Municipality again hard up. Ten millions given to it by Government already gone far and far away. Present pressing needs 500,000 dole." "The public generally must I think be as much mystified as myself by the *Times* accounts of the Argentine Committee meeting. A very short account the first day after the result would have sufficed to give all the necessary details of the recommendation." The accounts read as if the Committee need not trouble itself about the 1886 loan, that being secured on the Customs. If this be true, how is it that the said loan, 5 per cent, is at 76 "

A Mr. F. H. Brown, who gives his address as School-house, Ipswich, writes to the same paper and says—"Many people, who, like myself, are small holders of Provincial and Municipal bonds of the Argentine Republic, must be grateful to you for the tone of your articles on Argentina and for admitting to your columns such excellent letters as those in your issue of to-day. It seems to me that Baring Brothers were a firm who abused their high position to play for their own hand simply. I do not think their action in the Guinness' issue can be lightly forgotten, and I do think it shows, in a nutshell, their attitude generally." After reference to the Water and Drainage Company, Mr. F. H. Brown concludes in this wise, "I do not think the French and Germans are going to be humbugged as we are likely to be."

Alas! Space demands that I drop from respectability and the "haute finance" into "the stench," as Mr. Tim Healy would say, of the Central Criminal Court, where Mr. Harry Marks, editor-proprietor and founder of the *Financial News*, is prosecuting one George Washington Butterfield for scandalous and defamatory libel. Mr. Arthur Gill is counsel for the defendant and he seems bent upon bullying the arch-bully, Sir Charles Russell, who is counsel for Marks. Lord! How our sins follow us in these days. Steam and electricity are jointly the omnipresent and watchful providence which root out in London indiscretions committed in darkest Africa or New York. Mr. Harry Marks is a London County Councillor and may be an M.P., and like Gus. Harris, a high sheriff. A Mrs. Koppel states in evidence that, on the decease of her husband, who owned a newspaper in New York, Mr. Marks, who was formerly in her husband's employ, visited her unasked, offered to run the paper for a consideration of ten dollars a week, which he did, and, as the lady states, borrowed her jewelry and money, got hold of the plant of the paper and her affections, and after a child was born unto them, left her to starve. The case is still "sub judice," therefore, comments are reserved.

[In our last issue the verdict was published. Ed.]

PARAGUAY.

A Report on the "General Condition of Paraguay" has just been issued by the British Foreign Office. It is made by Mr. Pakenham, Minister to the Republic, and has been published with commendable speed, being dated from Ascension the 8th August last year. Mr. Pakenham begins his Report by saying "Since visiting Paraguay in 1886 I notice a very considerable advance in the progress of the country in every way." There are some advantages in coming back to a country after an interval of some years. Changes that have been taking place gradually strike those who revisit a country after an interval of a few years, while those who have not been away do not observe them. Paraguay is not a very large country, but is about equal in area to the United Kingdom. It has, however, a population of only about 1,300,000 souls, while there is ample soil of good quality for a large immigration. The results and the dangers arising from the wars waged by the younger Lopez have now been nearly removed. The total external debt is given in the Stateman's "Year-Book" at about 2½ millions, and of this the debt to Great Britain is about £830,000. These reduced sums are the result of various conversions and arrangements, and do not constitute, even with the sinking-funds, a very heavy burden. The interest payable on the English debt is 2 per cent up to September 30, 1891; 3 per cent from that date to September 30, 1895, and afterwards 4 per cent. The total amount of debt under present arrangements is about £2 per head, as against £25 in the United Kingdom, and from £30 to £39 per head in some of our colonies. The late President, General Escobar, left office in September of last year, but there is no reason to fear any change in the policy of the Government.

During General Escobar's presidency, Mr. Pakenham tells us that the Government have shown themselves very desirous to do all in their power to encourage foreign enterprise and to attract foreign capital by the arrangement of their foreign debt, by facilitating investments in various undertakings, and by offering inducements to families of agricultural immigrants to settle on their colonies. The "Platense Flotilla Company" has provided an improved and regular service of steamships, as far north as Villa Concepcion on the River Paraguay. Between eight and nine millions of British capital are said to have been invested. The Railway has been bought by an English company, and is being carried into the interior, and land companies have been formed which have bought considerable tracts from the Government. Many English and Scotch families connected with these investments have settled in the country, and Paraguay also attracts its share of the immigrants to South America from Spain, France, and Italy. There are two tramways in Ascension. One belongs to an Englishman; it extends 4 miles from the city, and is expected to be carried 4 miles farther into the country. The other, of an equal length, is said to be for sale.

The Railway in the interior has been opened for twenty years to the extent of 40 miles. It is now open to Villa Rica, a distance of 100 miles, and already the rolling-stock is quite insufficient for the traffic; but the Government has now increased its guarantee, and it is hoped that the Company will second there local Manager in his efforts to put it in efficient working order, "when it ought to become one of the best paying concerns in South America." The Line will eventually connect Ascension, the capital, with Encarnacion, or some other port on the River Parana. Beyond Villa Rica a further 75 miles will be open for traffic in a few months, and the concession for another 75 miles is expected to be granted by the next Congress and finished by the end of 1892. At present our direct imports from Paraguay are 'nil,' and our direct exports to Paraguay vary from £10,000 to £15,000 annually. The materials for the Railway must be bought either in the United States or Belgium, unless they are reckoned among the goods landed from Great Britain at Montevideo or Buenos Ayres. It is also proposed to construct another Line from Villa Rica to Santos, on the San Paulo system, in Brazil. The cattle are of the usual Brazilian breed, and "do not fatten in our sense of the word," but some owners of property have begun to import British stock, as the grasses, they say, are excellent for fattening purposes. This, by the way, affords a proof that we do export goods and cattle indirectly to Paraguay, although such exports do not find their way into the Board of Trade returns. The paper currency is depreciated, but not nearly to so large an extent as that of the Argentine Republic.

A great difficulty is experienced at present in taking land on lease. An enormous area is in the hands of speculators who refuse to give leases, only allowing yearly tenancies, without compensation for disturbance. These speculators leave the land uncultivated in the hope of higher prices. The situation, however, may be changed if a property or land tax be imposed, as seems likely, for this would induce the owners to get something for their land from leases. Land of the best quality, and in the best situations, is to be bought at £1,000 per league or 4,500 acres. It seems evident that, with the continuance of peace, Paraguay has a great future before it, and that, as the Railway system grows, Manchester and Birmingham will secure a direct and profitable market.—*Money Market Review.*

CLASSIFICATION OF GRAIN.

B. Ayres. Jan. 15th, 1891.

To the Editor of the STANDARD.

Dear Sir,

I have read with interest the letters and figures under this heading in the STANDARD of the 15th inst., but there are two sides to every question, and this one involves various considerations for shippers.

It is, of course, readily admitted that classification would secure a better price for the first grade, and the lower grades would suffer in proportion; so the question is: Would the average price secured cover the value unclassified, plus the expense of classifying, or even yield the same as unclassified?

It is well known that buyers in the consuming markets, especially on the Continent, are always ready to depreciate an article in view of buying it cheaper in consequence, and the grain not being classified is, of course, a splendid handle for them where the seller is not fully alive to the value of his goods, and the buyers are keen enough to form a pretty accurate opinion as to what a fairly drawn sample from a cargo would yield on classification, and they bid accordingly; but offer it to them classified here and see how much extra they will pay, probably not so much more as the cost of classifying on the other side. The question then crops up: Can it be classified cheaper, or even as cheaply here? And if it cost the same, where is the advantage in going to the expense here and thus enhancing the cost? It would be a disadvantage in a flat consuming market, where price is the consideration of the buyer, and lock up of capital a consideration to the seller.

Further, does the resolution of the London Corn Trade Association in January last year, that they will have "confidence in" the inspection here, mean that the "Trade will accept the classification here" as a basis of sale contract, with fixed differences in values between the respective grades? If not it would be money thrown away to incur the expense here, and in these hard times it is well to consider economies.

Then again: If the London Corn Tradt and kindred associations at other ports will accept as a basis of sale contract the classification here, would it not be better to arrange that the certificate of an association with representatives at the different ports be accepted, rather than be dependent on a single life, which is so uncertain, and his travelling expenses and fees, to say nothing of the inconvenience and expense of having to wait his pleasure at the different ports, which would form a very serious item in the cost, besides placing the shippers too much at the mercy of one person.

It is the experience of importers at home that with some articles it does not pay to have them classified abroad, and that might be the experience with grain from this; so some caution is necessary before deciding to adopt the system, especially as the grain market is so capricious: besides, in the event of sea damage, which must always be calculated upon, the classification here is upset.

Yours truly,

Experience.

THE INSURANCE TAX

To the Editor of the STANDARD,

Dear Sir,

In reference to the remarks of your correspondent "Legal," under the above heading in to-day's issue, permit me to draw attention to an important omission in that letter, where reference is made to the duty formerly payable in England on Fire Insurance Policies. Your correspondent states quite correctly that such a duty was charged, but does *not* mention that it applied to all companies, English or foreign alike, transacting business in the British Isles.

I am not aware of the nature of the protest made by the American Minister beyond what has appeared in your paper, but I can speak authoritatively on behalf of the various foreign fire insurance companies represented here when I say, that what we object to in the proposed new taxation is that it is so entirely one sided in its character. Let it apply, as the duty in England did, to Argentine and foreign offices alike, and the revenue will considerably benefit thereby, while no further objection will be raised on our part to it.

As those who are ignorant of the facts of the case may connect the "not long since" of your correspondent with a period of five or ten years at the most, I may add that it is over twenty years since the duty referred to was charged, and that the only tax at present on insurance policies in England is the usual penny revenue stamp which all must bear.

I am, Sir,

Your obedient servant,

Seguros.

Buenos Aires,
Jan. 16th, 1891.

To the Editor of the STANDARD,

Dear Sir,

The correspondent who signs "Legal," in this morning's STANDARD seems to labor under the impression that the Department of State of the United States of America is deficient in legal advisers, and writes as though the Secretary of State on hearing rumors as to the proposed Argentine taxes had caught up a piece of paper and thoughtlessly dashed off a protest. Your, I presume, esteemed contemporary, the *Diario*, seems to labor under the latter impression also. I can inform them both that the State Department of the United States goes to work in no such haphazard way and they can rest assured that no protest was made till the matter of the proposed tax on American insurance companies, and the bearing of existing treaties on the case, were carefully examined into by competent parties. Your correspondent says that not long ago *all* (italics are mine) insurance premiums paid a tax (he calls it a "duty") of ten per cent in England.

Well, what of it? I can inform him that *all* insurance companies in the United States, both home and foreign, pay various kinds of taxes and because *all* are taxed the foreign companies have no cause for complaint.

Again, he refers to the United States as going out of its way "to help downcast Yankees and *Bluenoses*" (italics are mine). Pray what has the United States protest to do with Canada or Canadians?

To turn to the *Diario*. Why does this paper, in all it prints about this matter, utterly ignore the fact that there is a treaty between Argentina and the United States, that the Government of the latter country interprets as bearing directly on this case? The *Diario* is not given to misleading its readers as a general thing.

To sum up the whole affair in a few words—an Argentine Minister of State proposes to Congress a tax on the premiums collected by foreign insurance companies, the United States Minister of State believes that it is not in accordance with treaties existing between the two countries and calls the attention of the Argentine Government through its Minister of Foreign Affairs to the matter, and it seems to me that the case is in the hands of parties fully as able to consider it properly and settle it satisfactorily, as the *Diario*, or "Legal," or

Yours very truly,

Bostonian.

BRITISH EPISCOPAL CHURCH, MONTEVIDEO

The Annual General Meeting of pew holders and subscribers, held at the British Consulate on Tuesday afternoon, was not largely attended, there being present Ernest Satow Esq, H.B.M. Minister and his secretary, Mr. Wilson, Messrs J. Saunders, Bentley, Swinden, A. J. Towers, J. Jones. B. Robinson, Hope, Lafone, and Edward Cooper. The third trustee, Dr. Lawrie, had to be excused on score of indisposition. The accounts for the past year were presented by the Hon. Treasurer, Mr. E. Cooper, and were approved. Owing to structural alterations and other causes the expenses had been unusually heavy and there was a deficit of 1,462 72 dollars. This, however, would be nearly covered by the amount due from the British Government, shortly to be received, so that the funds were, after all, on a perfectly safe basis. The expenses for the year, including the Chaplain's stipend, amounted to 3,399.72, and the amount of subscriptions etc., received from the British residents during the year was 1937 dollars. During the year the British schoolroom or hall, annexed to the Church, was completed and opened. The total cost of this was $5,661.66. To meet this there had been received on May 12th, $271.08, on May 20th, $811.30, donations from Messrs. J. McCrindle, J. Lowry, W. Meikle and Co., and W. H. Denstone amounting to $93, net result of inaugural concert $50, leaving a deficit balance of $1926.28 due to the British School Fund. This deficit it was hoped to work off gradually. The meeting passed votes of thanks to the out-going trustees (Dr. Lawrie, Hope Lafone Esq. and E. Cooper Esq.) to Don Rodolfo Arteaga for architectural services in the building and alterations, to Mr. George Cooper of London for having brought out various goods free of freight, and to Mr. A. J. Towers for his presentation of coloured windows. The following were then elected as trustees for the current year, Messrs. R. A. Thurburn, H. Marshall and W. Lafone Quevedo. It is not yet certain, however, whether they will accept the posts.—*Montevideo Times.*

THE AYACUCHO MURDER.

Ayacucho, Jan. 15th 1891.

To the Editor of the STANDARD.

Dear Sir,

Your account taken from the *Southern Cross* of the murder of Mr. Cosgrove has relieved the British community here from great suspense.

On New Year's Day the first information of the atrocity reached here, and on the following day, after attending the placing of the remains of the deceased gentleman in the mortuary of the cemetery for interment, as full an account as could be gleaned of the crime was sent to the British Consul in B. Ayres.

Ever since, we have been anxiously hoping to see due publicity of the murder, so that any further information, which might be instrumental in the apprehension of the criminals, will be probably supplied.

We are glad to think that sufficient time will have been given for our police authorities here, and at home, to arrest the two men on their arrival in a British port, the only satisfaction which can be made to his distressed relatives at home and his numerous friends here.

I remain,

Your obedt. servant.

Pro bono publico

Railway Items.

Yesterday the tramway companies filed a petition to Congress for immunity from the seven per cent tax on the profits of joint-stock companies. As the railways have escaped the tax, it is hardly fair for Congress to come down on the unfortunate tramway companies. The profits of the tramway companies are at a very low ebb indeed. The 12 per cent dividend of former years has fallen to 4 per cent and threatens to fall even lower. Better for the shareholders to have placed their money in the "elegant simplicity" of British Consols. The proposed 7 per cent tax would be a severe blow to the companies, on whose returns so many thousands of widows and persons with small capital are dependent at home for their existence. The traffic returns of the tramway companies have fallen off so considerably that one company alone has suffered a decrease of £1000 per week in the figures for last year, and 1890 was a bad year for the companies. What with the falling-off of traffic and the depression of the dollar, we do not believe the companies could long support the weight of the proposed 7 per cent tax.

The traffic returns of the Rosario Railway in September were:—

	$
Gross returns	541,636 84
Expenses	322,411.65
Net	219,225.19

We clip the following account of a meeting from our railway exchanges of Dec. 20th—

"The third ordinary general meeting of the Shareholders of the Buenos Ayres and Valparaiso Transandine Railway Company, Limited was held on Dec. 18th in Winchester-House, Mr. Underdown, Q.C., presiding, in the absence of the Chairman of the Company. In moving the adoption of the Report and accounts, the Chairman stated that the works of the Company have been carried on steadily during the past year. The system has already been fully explained, but the Directors are informed that satisfactory progress has been made in Chili with the Line from Santa Rosa Station, on the Chilian Railway, towards the pass, so that the termini on either side of the Andes will thus shortly be within a day's journey by road from each other. The matter that has taken a great time has been, and will be, the completion of the tunnel. The Line was originally laid out to pass over the summit of the Cordillera by a somewhat circuitous route, but this has been found objectionable for many reasons, and the new plan adopted, which has been approved by the Government, involves the construction of tunnels. These tunnels are now being proceeded with on the Argentine side with considerable activity, and at the end of September a total length of 1,265 metres had been made. The actual progress, however, has been greater than that, as a heading, or smaller tunnel, has been driven, and so far everything is satisfactory. Great hopes are entertained that the Chilian section will be completed towards the beginning of New Year, and, on the whole, he (the Chairman) thinks the Proprietors may feel very well satisfied with the position of their enterprise. General A. Fraser seconded the adoption of the Report. In answer to various questions, the Chairman said he hopes the Line when completed will be a great medium of communication between the Argentine and Brazilian side with the Chile-Peruvian districts on the other side of the mountains, and its importance, therefore, could hardly be over estimated. The resolution was unanimously agreed to.

EDITOR'S TABLE.

Although the news from Entre Rios yesterday was much cooler, everybody complained of the heat; even the gold eagle was afflicted by the temperature. A young cyclone was seen knocking about in the S.W. horizon about lunch hour; but it did not come this way, to the intense disgust of the whole population.

The Senate refused to work yesterday, or even to hear the Committee's report on Cato's Bills read, as all the honourable legislators had it off by heart. Senator Rocha is expected to lead a dashing attack on the Bills in the debate to begin to-day.

They are all booming again over the water, on the strength of a round million sterling which the Bank of Brazil has most unwisely lent the B.O. Government. If the cash is used prudently, however, it will help our neighbours along for a while.

From Mar del Plata the news is that the visitors there are all as gay as larks, shooting pigeons, swimming, and plucking each other at baccarat, unlimited loo and poker.

The Minister of Worship, Dr. Carballido, contradicted publicly yesterday the version given by a contemporary of H.E.'s statements about the scuffle in Entre Rios. So best.

The Convention in Rosario is going on so well that it has started a very patriotic Hymn of its own. Nevertheless one telegram says there is a hole in the ballad, punched by delegates from old Cordoba. There is a grand ball to-night, we believe, to wind up the affair.

A rather curious question has arisen in connection with the fire in a cigar shop in Calle Esmeralda the other night. The dispute hinges on one side on the assseveration that, when the fire occurred, at an hour when all good citizens are in bed, the owner of the shop, when he rushed into the street to give the alarm, was as fully and as fashionably dressed as if going for a drive to Palermo. The other contention is that he was in "panes menores", with his pantaloons and slippers tucked under his arm, putting both on in the street, amid the cheers and laughter of the assembled crowd. No man is a hero to his "valet de chambre," so it is no wonder that the poor cigar man could not pose as such to a midnight street crowd.

We note that in spite of the hard times Minister Carballido is so pleased with the results of the English athletic sports introduced in the National College of Corrientes by its talented Rector, Professor Fitzsimon, that H.E. has authorized him to have a Plaza in Corrientes arranged for the sports. In a recent match of football between the boys and some former Cambridge men, the Argentines won.

Considerable interest is being evinced here in the great International Race at Montevideo to be brought to an issue to-morrow, as some half-dozen of our cracks will compete. Our Sporting Editor suggests that a modest investment on Disoluta, a rank outsider, might not prove unremunerative.

Our esteemed contemporary the *Southern Cross* celebrated its 17th birthday yesterday by greatly increasing the size of its sheet, an agreeable proof of the public patronage it deservedly enjoys. We wish our colleague many happy returns of the day.

The Convention in Rosario is quite a bit of luck for that place.

THE DIPPING SEASON.

Under the above heading, the following appears in a recent exchange:—

"Speaking of Dips themselves, perhaps the most significant feature in their "History is the way that the Old fashioned have been superseded by the more "Modern and Scientific preparations. As Tobacco gave place to the various "Fluids" "and these again to the "Powders" so we find to-day these latter retiring before the "new Paste Dips. Of the many recent experiments we have witnessed in England and "the Colonies, the most successful were with an Arsenical Paste, manufactured by "Tomlinson and Hayward, of Lincoln, a firm that has always been noted for keeping "abreast of the times."

"The advantages of the Paste over the "Powders" are many:—
"It does not make the wool dry and harsh, but leaves it soft and silky, giving a "healthy sweet smell to the sheep. Being, so to speak, already mixed, it is easier to "prepare there, being no waste nor loose "Powders," to fly about.
"As it is prepared with Carbolic it is lighter than the "Powders" and does not "so readily settle to the bottom, and for the same reason it is not injurious to the "hands. It goes in less space and is a more concentrated form than the "Powders," "thus effecting an economy in transport and labour. It costs less, and will mix with "any kind of water. In a word, it is the "Powders," cleared of their many inherent "defects, with their curative properties and good qualities preserved and increased. "Until the manufacturers make some better discovery

ON 'CHANGE.

EXCHANGE RATES—

England	14⅛d.
France	1.55½ fcs.
Germany	1.25 marks
Gold equivalent	321.00

Friday, January 16th.

Gold opened this morning high and hard at 331, but as it soon turned out that the Entre Rios business was a mere flash-in-the pan, and there being few or no takers of exchange, the rate dropped gradually to 326, at which it was quoted at half-past one. Later in the day still there was a further decline announced, so that by 4.30 p.m. 325 buyers and sellers was the rate. Brokers report the market still leaning towards a fall. Exchange continues to harden, and as this is what really rules the market, it is only reasonable to expect a further appreciation of the paper dollar. What a pity it is, they say on 'Change, that the Government cannot chime in with the market now on a sound policy, instead of persevering with bills so unanimously and severely condemned. But it seems as if the more sweeping the condemnation the more decided is the determination of the Government, or rather the Minister, to keep groping in the dark, wilfully blind to the only safe outlet. However, he is sowing the wind, and with such a vehemence that if he reap not the whirlwind it will deal a heavy blow to economic theories. The seed has been cast wilfully broadcast, and it remains to be seen what fruit it will bring forth. Meantime, the market may be reported much improved, with heavy drawers and few takers of exchange, gold falling and stocks apparently rallying, but it must not be supposed from this that already "the gates are passed and heaven won."

La Plata advices announce that the Government is busy with the reductions in the expenditure, which are calculated to reach about a million dollars. It is said that the Legislature will give the new Minister of Finance, Dr. Ortiz de Rosas, "carte blanche" to make as many reductions and suppressions as he may deem fit.

With regard to the Cedula business, it seems that Dr. Ortiz de Rosas, although of opinion that the conversion of the Cedulas cannot be carried out without the Cedula holders meet the Government half way, is not prepared to make any overtures until the holders take some steps. It seems that amongst the Deputies the opinion prevails that the tax is quite constitutional, which seems to destroy all hopes of a

which perhaps about 8 millions paper are recoverable. This is not a promising state of affairs, but as the liabilities only figure up to say four millions, it is quite possible that the board may be right in believing the situation still susceptible of being set straight. On the other hand, there is Government interference and influence to be reckoned with. This means unknown difficulties in such a critical moment as the present, which would hamper to a great extent the efforts of the board. In this respect the recent transfer of 200,000 dols. gold from Mr. Casado's debit account to that of the Government is commented on, as Mr. Casado is good security, whilst the Government is scarcely the same guarantee. A few more such strokes of finance and the stats of the bank will prove desperate.

Messrs. Norton & Sons' valuable lumber circular, received by the mail and corresponding to month of November, 1890, shews that the shipments from the States to this country during that month shew no falling off, and taking the average of the 11 months there is, on the contrary, rather an increase. The only notable falling off is in pitch pine. The following are the figures for November as compared with the 11 months of 1890:—

The *Montevideo Times* of 15th inst. says:—

"The animation we noted yesterday was continued, and there was a brisk movement to-day. In the first ring gold came down with another run, and other values improved, but this was not sustained, for in the second ring prices were very unsettled and finally closed much as yesterday. We do not think the reaction is yet to be trusted. In fact, we have strong reasons for suspecting that not a little of it is due to speculation of the old type, and we warn our readers to be cautious accordingly, lest they should suffer from a relapse.

"The downward course of gold continued, and whatever its cause, is welcome. It opened at 133, descended gradually to 129, and after various flickerings closed in first ring at 129½. After hours, however, its aspect altered, and sales were done at 130, jumping with a bound to 135 and 134½. $50,725 sold; 39 operations.

"The Cosmos brought from Buenos Aires yesterday 2000 gold dollars to B. Tejada.

"The Fiscal Committee of the National Bank has begun the sealing and deposit of the notes in their possession, in conformity with the recent decree. The amount sealed yesterday was 9,402,000 dols."

Wolseley Sheep Shearing Machine Company, limited.
Cabaña del Rincon,
Propiedad del Señor Don Tomas Bell,
Estacion Pereira, 18th Sept. 1890.

Messrs. Agar Cross & Co.

Dear Sirs,

I have great pleasure in reporting favourably of your "Wolseley Sheep Shearing Machine." Up to date we have shorn upwards of 300 Lincoln Rams and Borregas, and find it quite up to our expectations. It is simple and easily handled, and in no way complicated or difficult to understand or work, and so far it has never been out of order. It shears the sheep beautifully: it does them quicker and considerably better than it is possible to get them done by hand, and saves the poor animal a great amount of abuse.

I have timed our Amateur Shearer here, and find he can shear upwards of eight in the hour. Consequently, I consider the Wolseley Machine one of the best patents I have yet seen, in proof of which I intend having some more put up at an early date.

Yours very truly,
WILLIAM RIDDICK.

At the Estancia Grande, the property of GEORGE BELL, there are always on Sale Clydesdale and Cleveland Stallions, Durham Bulls, and Lincoln Rams, also Potros suitable for carriages and heavy draught.

As all animals offered for sale at this Estancia are by Stallions, Bulls, etc., imported direct from England by the owner; it would therefore be advantageous for intending purchasers to inspect the same before purchasing elsewhere.

Nearest Station (under a league from the Estancia) EMPALME PEREIRA F. C. a La Plata from whence animals can be despatched to any part of the Republic

Animales of the same breeds are obtainable at thee Estancia La Favcrita. Apply to the Mayordomo, Almacen La Suiza, Carrera Tandil á Necochea, or to Hotel Dhees, Tandil. Also at Estancia Santa Catalina. Apply Mayordomo, San Jose de la Esquina. F.C.O.S. Rosario.

Dr. J. Collis Browne's
CHLORODYNE.
THE ORIGINAL AND ONLY GENUINE
Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.
From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Januar 5 1880. To J. T. Davenprt, Esq., 33, Great Russel Street, Bloomsbury, London.
Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medecine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question wether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native dazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. we could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Dollis Browne.s Chlorodyne in Diarrhœa and Dysentery, Sapasms, Crampas, Neuralgia, the Vomitng of Pregnancy, and as a general sedative that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Choiera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of he Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists
Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr J Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defedant Freeman was deliberately untrue, which he regretted to say, had been sworn to.—See The Times," July 13, 1864.
Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.
Caution.—Beware of Piracy and Imitations.

Keating's Cough Lozenges.
"94, Commercial Road, Peckham, July 12, 1889.
"Dear Sir,—I am a poor hand at expressing my feelings on paper, but I should like to thank you, for your lozenges have done wonders for me in relieving my terrible cough, Since I had the operation of 'Tracheotomy' (the same as the late Emperor of Germany, and unlike him, thank God, I am still alive and getting on) well-performed at St. Bartholomew's Hospital for abduct, or paralysis of the vocal chords, no one could possibly have had a more violent cough; indeed it was so bad at times that it quite exhausted me. The mucus also, which was very copious and hard has been softened, and I have been able to get rid of it without difficulty,—I am, sirs, yours truly,
"Mr. T. Keating," "J. HILL.
Medical Note.
The above speaks for itself. From strict inquiry it appears that the benefit from using Keating's Cough Lozenges is understated. The operation was a specially severe one, and was performed by the specialist. Dr. H. T. Butlin, of St. Bartholomew's Hospital. Since the operation the only means of relief is the use of these Lozenges. So successful are they that one affords immediate benefit, although from the nature of the case the throat irritation is intense. Mr. Hill kindly allows any reference to be made to him.
